

**International Endodontic Summit (IES) 2026: Komet Dental hosts its first international Endodontic Congress**

**The International Endodontic Summit (IES) combines scientific depth with clinical workflows and practice-relevant Impulses for the future of Endodontics.**

*On October 1 and 2, 2026, Komet Dental will host their first International Endodontic Summit (IES) at Hotel Oderberger in Berlin. Deliberately focused on 300 participants, the IES creates an environment for experts for scientific exchange at the highest level. The scientific program is complemented by 14 accredited CME points\*.*

*Lemgo, April 10, 2026 – How will endodontics be practiced in the future? With this year’s International Endodontic Summit (IES), Komet Dental is introducing a continuing education format built around exactly that question. The summit brings together internationally recognized experts and dedicated dentists with a strong focus on endodontics. At its core are evidence-based concepts, structured clinical decision pathways, and content with direct relevance to everyday practice.*

The scientific program is centered on Advanced Clinical Endodontics and follows the complete clinical workflow: from diagnosis to therapeutic strategies and treatment techniques through to post-endodontic restoration. This structure creates clarity and supports implementation in daily treatment. Topics on the agenda include future-focused fields such as artificial intelligence in the dental office and in endodontics, current concepts in pulpotomy, questions of timing and efficiency, bioceramic sealers, the management of endodontic failures, and restorative treatment concepts including CAD/CAM. Additional discussion formats deepen the content and encourage meaningful professional exchange.

Prof. Massimo Gagliani coordinates the scientific program and aligns the content in a deliberate and coherent way. Together with the speakers, he ensures the clinical quality of all presentations. The lectures will be delivered by renowned international speakers from Germany, France, Italy, Belgium, Spain, the United Kingdom, and the Czech Republic, all of whom are recognized experts in their field.

IES deliberately prioritizes depth over breadth, clinical relevance over generalization, and scientific exchange with room for in-depth discussion. Attendance is focused to a maximum of 300 participants. This intentional limitation creates the conditions for focused peer-

level dialogue and direct access to international experts. They are available not only as presenters, but also as conversation partners. Alongside direct exchange and a shared dinner event, the historic setting of Hotel Oderberger also contributes to an environment that connects scientific substance with everyday clinical routine.

*“The IES was created to foster scientific depth, structured clinical thinking and meaningful professional exchange. With a clear focus on advancing endodontic excellence and translating evidence-based knowledge into everyday clinical practice.”* says Prof. Massimo Gagliani, Scientific Coordinator of the International Endodontic Summit.

## All facts at a glance:

- **Date:** October 1–2, 2026
- **Location:** Hotel Oderberger Berlin
- **Format:** Two-day, scientifically driven continuing education format
- **Number of participants:** Limited to 300 attendees
- **Key topics:** Diagnostics, treatment planning, treatment techniques, endo-restoration, AI, pulpotomy, bioceramics, failure management, and CAD/CAM
- **Speakers:** Florian Holste, Dr. med. dent. Sascha Herbst, Dr. Gregory Fejoz, Prof. Dr. med. dent. Sebastian Bürklein, Dr. Benjamin Boubllil, Dr. Rafaël Michiels, Dr. Alessandro Fava, Dr. Marco Veneziani, Prof. José Antonio González Sánchez, Dr. Guillermo Doria, Dr. Daniel Černý, Dr. Rupert Austin
- **Continuing education credits:** 14 accredited CME points\* upon full participation
- **Included:** All sessions, CME certificate, catering, evening event, and summit materials
- **Participation fee:**
  - Early Bird (through May 31): EUR 699
  - Regular: EUR 749

IES 2026 is a key date for everyone who wants to help shape the future of endodontics in an evidence-based and practice-oriented way.

## About Komet Dental

Since 1923, Gebr. Brasseler GmbH & Co KG, headquartered in Lemgo, Germany, has been offering one of the world's largest ranges of rotary dental instruments and systems under the Komet Dental brand, with over 25,000 items. These are available through subsidiaries and partners in around 100 countries worldwide.

The comprehensive range includes sophisticated standard instruments and innovative solutions that set industry-wide standards in dental practices and laboratories. In addition to the classic "rose bur", the broad portfolio includes many other instruments such as crown cutters, composite removers and polishers. This is supplemented by products and systems for endodontic treatments. Services such as the Komet Academy with training courses on the use of the products complete the range.

## About Brasseler

As a family business, Brasseler has been committed to improving the quality of life of people around the world with its dental and surgical products for over 100 years. What began in 1923 with a visionary idea has become an international success story: Having developed into a globally active MedTech company based in East Westphalia-Lippe, Brasseler is now one of the most important employers in the region. Brasseler has been family-owned since its foundation, and the shared values of the family business are characterized by long-term thinking and a focus on people. The company employs around 1,500 staff worldwide, 1,200 of whom work at the company head office in Lemgo.
